When you search for videos and other content on YouTube, you can refine your search by using filters.

After typing your search query in the search box at the top of any YouTube page, click the **Filters** drop-down menu below the search box.

The screenshot shows a search bar with the text 'cats' and a magnifying glass icon. To the right of the search bar is an 'Upload' button with a dropdown arrow. Below the search bar is a 'Filters' dropdown menu, which is circled in blue. To the right of the filters menu, it says 'About 17,200,000 results'. Below this is a table of filter options:

Upload Date	Result Type	Duration	Features	Sort by
Last hour	Video	Short (~4 minutes)	HD (high definition)	Relevance
Today	Channel	Long (20~ minutes)	CC (closed caption)	Upload date
This week	Playlist		Creative commons	View count
This month	Movie		3D	Rating
This year	Show		Live	
			Purchased	

You can filter by the type of content (e.g. video, playlist, or movie). For example, if one cute cat video isn't enough, you can find an entire playlist of cute cat videos by clicking **Playlist** under "Result Type" in the Filters drop-down menu.
